

IATC

International Anesthesia
Teaching Center

Enroll now for EDA (European Diploma of Anesthesiology) preparatory course in Moldova.

The EDA is the highest professional degree in anesthesiology in Europe. In some European countries, the written part of the exam is equal to the national board of anesthesiology.

In 2011, a special program for Moldovan anesthesiologists is offered to prepare them to pass the demanding EDA exam. The course is supported by the Ministry of Health of Moldova and Germany, and the IATC (International Anesthesia Teaching Center).

Participation for motivated anesthesiologists is free of charge. The course includes access to a modern IATC library, to multiple choice questions, clinical case discussions and learning of new technologies in anesthesia and ICU care.

Responsible for coordination of the course: Prof. Cojocaru, Prof. Schily
